

ANIMO'S NEW OPTIME X JUST THE WAY YOU LIKE IT

COFFEE JUST THE WAY YOU WANT IT WITH OPTIME X

Animo proudly presents the latest model from the OptiMe line of coffee machines: the new OptiMe X. We have completely redesigned the core of the OptiMe so that taste is always delivered with precision. The OptiMe X offers the quality that you have come to expect from Animo, in a compact machine that will fit anywhere.

A CUP OF THE FINEST COFFEE

Freshly ground coffee beans deserve to be treated with respect, and that's all down to the brewing process: the combination of the amount of coffee, grinding degree, tamping pressure and temperature. Animo's X-press precision brewer has been designed so that every feature can be perfectly tailored to your personal tastes. Because that's what it takes to turn your brew into a cup of class.

TWO CUPS AT THE SAME TIME

With its clever combination of high-quality components and technical expertise, OptiMe X makes freshly ground coffee and a wide range of coffee styles and other drinks in no time at all. Even if you use the OptiMe X to make two cups of coffee at the same time. OptiMe X is equipped with the X-press brewer which upgrades your machine with the following features:

- + Swiss X-press brewer 6-20 gr / 25-350 ml
- + Dispense larger cups faster
- + One or two coffee grinders
- + Top quality coffee
- + Brew two cups at once

GREAT TASTE COMPACT MACHINE

The compact 360° design of the machine makes it a real eye-catcher in any room, whether you want it to stand out or blend in with your interior decor. Due to its compact size, the OptiMe X can be installed anywhere. In offices, hotels, hospitals, restaurants or even self-service locations thanks to the convenient touch screen together with the user-friendly interface. Offer your guests, colleagues or clients a perfect cup of coffee or one of the many other special options.

THE PERFECT COFFEE IS JUST ONE TOUCH AWAY

Animo stands for great coffee, award-winning designs and genuine sustainability. We use high-quality components and a clean production process to build energy-efficient machines with durable performance and excellent taste. We have been improving our coffee machines for over 70 years, using reliable technology and durable construction. And that means your OptiMe X will run smoothly for years to come.
